The Vision and Essence of National Education Policy 2020 (NEP 2020)

The National Education Policy 2020 (NEP 2020) is a landmark reform in the Indian education system, introduced to cater to the evolving demands of the 21st-century learner. It envisions an education system that is rooted in Indian ethos, yet globally aligned, aiming to nurture thoughtful, creative, and innovative individuals who can contribute meaningfully to society. This visionary policy emphasizes the development of a holistic, flexible, multidisciplinary, and learner centric educational framework that ensures equity, excellence, and inclusivity. By restructuring the curriculum and pedagogy across all levels, NEP 2020 fosters the integration of vocational education, critical thinking, and value-based learning with a strong emphasis on conceptual understanding and practical application.

The policy aims to overhaul the traditional rigid education system and instead introduces flexible pathways for learning, personalized curricula, and multiple exit and re-entry options. It encourages psychological, sociological, and physiological development of students, thus emphasizing not just academic excellence but also emotional and ethical maturity. NEP 2020 proposes to bridge the gap between formal education and real-life skills, enabling learners to become responsible citizens and global professionals. It strongly advocates blending modern pedagogy with traditional Indian knowledge systems and value-based education to instil cultural pride and a sense of rootedness in Indian heritage.

The Vision of National Education Policy: The National Education Policy 2020 (NEP 2020) has been formulated and adopted to meet the needs of 21st-century learners. It aims to create a holistic, inclusive, and multidisciplinary education system that prepares individuals for global competency, lifelong learning, and innovation. NEP seeks to revolutionize the current education structure by introducing flexibility in learning pathways, skill-based education, and promotion of Physiological, Sociological, and psychological development.

The NEP 2020 aims to:

- Transform the education system by integrating Indian traditional knowledge systems with modern education.
- Promote a multidisciplinary and holistic education that ensures the unity and integrity of all knowledge.
- Encourage critical thinking, creativity, and innovation.
- Enhance the capacity of learners to apply knowledge to real-life situations.
- Promote ethical, rational, and compassionate behavior.
- Provide flexibility in subject choice, course design, and assessment patterns.
- Encourage learning that is rooted in Indian culture and values.
- Improve research and development through enhanced quality and relevance.
- Ensure inclusion and equity in education.

Key Objectives of NEP 2020

- **Integration of Traditional and Modern Knowledge:** The policy aims to merge the richness of India's traditional knowledge systems spanning Ayurveda, Yoga, Mathematics, Astronomy, and more with modern scientific advancements, ensuring that students benefit from both ancient wisdom and contemporary relevance.
- **Multidisciplinary and Holistic Education:** It promotes an education model that allows learners to study a combination of arts, sciences, commerce, and vocational subjects, thus dismantling the silos of discipline-specific learning and nurturing intellectual versatility.

- **Critical Thinking and Creativity:** The focus is on moving beyond rote learning to encourage higher-order thinking, innovation, and analytical abilities that prepare students to navigate complex problems and dynamic work environments.
- **Application of Knowledge:** Learners are encouraged to apply their knowledge in real-life scenarios through experiential learning models, projects, internships, and community engagements.
- **Ethical and Compassionate Behaviour:** The policy emphasizes moral education, character development, empathy, respect for others, and environmental consciousness to shape well-rounded individuals.
- **Flexible Learning System:** A flexible curriculum with a wide array of subject choices and assessment formats allows students to tailor their learning pathways in alignment with their interests and goals.
- **Cultural and National Identity:** NEP 2020 encourages education rooted in Indian languages, culture, and values, thereby strengthening students' sense of identity and connection with their heritage.
- **Research and Development:** By enhancing research infrastructure and promoting inquiry-based learning, the policy aims to elevate the quality and impact of Indian research globally.
- **Equity and Inclusion:** The policy ensures that marginalized and underrepresented communities are given ample support to access quality education, thus bridging socio-economic and gender-based disparities.

Programme Design and Credit Framework: The academic programmes are meticulously structured in alignment with the NEP 2020 guidelines and the National Higher Education Qualifications Framework (NHEQF) prescribed by the University Grants Commission (UGC). The curriculum is designed to provide a balance between theoretical knowledge and practical exposure, ensuring that learners acquire both intellectual depth and real-world skills. A unique credit-based system is followed, allowing flexibility in choosing courses and enabling seamless mobility across institutions.

Multidisciplinary Approach: The college adopts a multidisciplinary approach that encourages students to explore a wide range of disciplines such as Science, Humanities, Commerce, Social Sciences, Languages, and Vocational Studies. This model allows for both interdisciplinary (across broad domains) and intradisciplinary (within a field) combinations, offering students the freedom to shape their educational journeys according to their passions and career aspirations. The programme structure also supports mobility both academic and geographical through transfer of credits between institutions, encouraging lifelong learning and broader exposure.

Major Objectives of the Programme: The programme aims to uphold the spirit of multiculturalism and multilingualism, as emphasized by NEP 2020. By incorporating culture-based education and art-integrated learning, students are provided with diverse ways of expressing their ideas and understanding complex concepts. The curriculum includes experiential learning components such as hands-on training, simulations, fieldwork, and real-life problem-solving. A major thrust is given to vocational training and skill-based courses to prepare students for emerging job markets and entrepreneurship. Additionally, the curriculum draws on discipline-specific information knowledge systems, reinforcing contextually relevant learning rooted in local and global contexts.

Programme Structure, Eligibility, and Duration: The undergraduate programme is spread over six semesters, with each semester comprising at least 90 working days. Students are expected to earn a minimum of 20 credits per semester, with opportunities to acquire additional credits through internships, research projects, and value-added courses. In the initial years, foundational and skill-enhancement courses are offered, followed by specialized courses in the major and minor disciplines. The eligibility

for enrolling in undergraduate programmes is successful completion of the 10+2 level (HSC or equivalent) from a recognized board, with additional criteria for vocational/professional streams as per UGC norms.

Major and Minor Subjects with Electives: Students must select a Major Subject (12 credits per semester), which forms the core of their academic focus. This includes theoretical studies, practicals, internships, and a research project, particularly in the case of 4-year honours programmes. Alongside, students opt for a Minor Subject (6 credits per semester), which allows exploration of a different area of interest or a skill-oriented course. The inclusion of Open Electives (OEs) provides additional flexibility to pursue interdisciplinary knowledge.

Implementation of NEP 2020 in Postgraduate and Undergraduate Programs

In alignment with the National Education Policy (NEP) 2020, our institution **Anjuman Islam Janjira, Degree College of Science, Murud-Janjira**, has proactively undertaken curricular reforms to enhance academic quality and align with the broader objectives of flexibility, interdisciplinarity, and outcome-based learning. The NEP 2020 framework has been systematically implemented across various academic programs in a phased manner.

At the postgraduate level, the NEP 2020-based curriculum was introduced in the Department of Botany and the Department of Chemistry starting from the academic year 2023-2024 for Part I PG students. Subsequently, the implementation has been extended to Part II PG students beginning from the academic year 2024-2025. These curricular changes include credit-based systems, skill enhancement courses, research components, and interdisciplinary electives, in accordance with the guidelines prescribed by the University of Mumbai and the Government of Maharashtra.

Similarly, at the undergraduate level, the NEP 2020 curriculum was successfully introduced for all First Year UG programs (Arts, Science, and Commerce) in academic year 2024-2025 and for Second Year UG programs (Arts, Science, and Commerce) from the academic year 2025-2026. This marks a significant shift towards a more holistic and flexible undergraduate education structure, incorporating multidisciplinary options, Ability Enhancement Courses (AEC), Skill Enhancement Courses (SEC), and value-added components as recommended under the NEP framework.

Anjuman Islam Janjira, Degree College of Science, Murud-Janjira, is committed to the full-scale implementation of NEP 2020 across all years and programs. Accordingly, the revised curriculum by University of Mumbai will be extended to the Third-Year undergraduate levels from academic year 2026-2027 as per the academic calendar and regulatory framework prescribed by university and statutory bodies.

This phased implementation underscores the institution's dedication to academic innovation and quality enhancement, thereby fostering student-centric, inclusive, and globally competitive higher education.
